Duties: You will serve as an in-country Southwest Asia supervisor over a Tactical Communications Facilities Operation. As such, you'll exercise supervisory responsibility over the work operations assigned to the unit. The occupation and non-supervisory grade level which best reflects the nature of the overall work operation supervised is Electronic Digital Computer Mechanic, WG-2608-12, although will occasionally supervises General Schedule employees. In addition to short-range planning, plan on a quarterly or longer basis the overall use of personnel and other resources. Establish deadlines, priorities, work sequences and plan work assignments based on general work schedules and short and long-range plans developed. Determine resource requirements, materials and the number of subordinates and types of skill necessary. Assigns and explains work requirements and operation instructions, set deadlines, and establish the sequence of work operations. Supports and explains management programs.

About the Position: Tobyhanna Army Depot is the largest, full-service electronics maintenance facility in the Department of Defense with a total installation work force of more than 4,400. The depot's mission includes design, manufacture, repair and overhaul of hundreds of electronic systems for all branches of the Armed Forces. They include satellite terminals, radio and radar systems, secure communications, electro-optics, night vision and anti-intrusion devices, airborne surveillance equipment, navigational instruments, electronic warfare, and guidance and control systems for tactical missiles. For over 50 years, Tobyhanna personnel have built a tradition of unparalleled customer satisfaction through the delivery of timely, cost-effective, and high-quality products and services. Located in Northeastern Pennsylvania, near Stroudsburg, Scranton and Wilkes-Barre, the depot is readily accessible to major East Coast cities, interstate highways, railways, international airports, colleges and universities.
